USB Gaming Headset with Multiple Connection Options

Our EPOS Hybrid products deliver multiple connection options for your optimal gaming experience. The EPOS H3 Hybrid headset delivers high quality game audio with exchangeable USB PC cable and 3.5 mm console cable as well as a Bluetooth® option.

There are two microphones in the H3 Hybrid; the high-quality main is in the detachable boom arm while the secondary in the ear cup allows for on-the-go calls when the boom arm is detached. A magnetic connection between the boom arm and headset makes removal and re-attachment intuitive and effortless. When the boom arm is detached, a cover plate protects the connectors and keeps the look of the headset seamless.

The versatility of the H3 Hybrid headset lets you use it in all walks of life. Take advantage of the EPOS Gaming Suite for 7.1 surround sound when connected via USB to your PC. Set the smart button so you can always quickly be in control of your audio e.g. by enabling/disabling surround sound. Wear it while watching your favorite streamer on your smart phone connected via Bluetooth® or play your game on your commute connected to your portable gaming device with the 3.5 mm console cable. Dual connectivity also allows audio mixing with an audio stream from USB or console cable and another via Bluetooth®. With separate control over the volume of each stream, you can make a call or chat with your friends via a 3rd party app on your phone while gaming.

Adjust the fit of the headset with the built-in stainless-steel slider in the headband. Remember your most comfortable fit with the help of length indicators and click stops on the slider. Hinged ear cups that can be angled to fit any face shape and ergonomic ear pads designed to conform to the

USB Gaming Headset with Bluetooth®

The EPOS H3 Hybrid gaming headset provides wired connectivity with USB/console cables and a simultaneous Bluetooth® connection for the gamer seeking multiple connectivity options in a high-quality headset.

Designed for lightweight comfort, a slider with length indicators is built into the headband for easy adjustment of the headset. Hinged ear cups with ergonomically shaped ear pads angle to fit any face shape. The main microphone in the detachable boom arm delivers crisp intelligible game chat while a secondary in the ear cup allows calls while the boom arm is removed.

Download the EPOS Gaming Suite for further audio controls and play with 7.1 surround sound on the PC. When paired with a smart phone, simultaneous Bluetooth® connectivity lets you chat with your friends while gaming.

USB Gaming Headset

The EPOS H3 Hybrid gaming headset delivers a high-quality audio experience with exchangeable USB/console cables and convenient simultaneous Bluetooth® connectivity.

Multiple Connection Options

Our EPOS Hybrid products deliver multiple connection options for your optimal gaming experience. The EPOS H3 Hybrid comes with exchangeable USB cable for your PC, 3.5 mm cable for consoles and convenient simultaneous connectivity with standard Bluetooth®.

EPOS Audio Technology

EPOS engineered audio delivers the best audio performance for game enjoyment. The deep bass response delivers the immediacy of in-game action while acoustic clarity delivers crisp intelligible chat for in-game strategy discussions.

EPOS Gaming Suite

Enhance your audio experience through the EPOS Gaming Suite. Get 7.1 surround sound, and tailor game sound and communication on your PC.

Smart Button

Set the smart button in the EPOS Gaming Suite for quick control of your audio, e.g. by enabling/disabling surround sound.

Audio Mixing

Mix two audio streams with wired cable connections and simultaneous Bluetooth® connectivity. With separate volume control over each stream, you can call a friend or chat with them using a 3rd party app on your phone while gaming.

Magnetic Detachable Boom Arm

Detach and reattach the boom arm effortlessly with a magnetic connection in the headset. When the boom arm is removed, a cover plate protects the connectors and keeps the look seamless.

Secondary Microphone

A secondary microphone in the ear cup lets you pick up calls when wearing the headset on-the-go without the main microphone in the boom arm. For optimum sound quality, re-attach the boom arm.

Instant Mute

The lift-to-mute feature of the microphone boom arm gets you off the air instantly for best in-game chat control. Decide when to broadcast and when to keep your comments to yourself.

Integrated Volume Control On The Ear Cup

Make quick intuitive volume adjustments on the fly with a volume wheel integrated in the right ear cup of the headset. Adjust the loudness of your game audio without having to switch out of your game.

Lightweight Adjustable Fit

Easily adjust the lightweight headset to fit you. A built-in stainless-steel slider in the headband with length indicators and click stops help you remember your most comfortable fit. Hinged ear cups that angle to fit any face shape and ergonomic ear pads provide long wearing comfort.

Exchangeable Ergonomic Ear Pads

Designed based on the anatomy of the ear, the ear pads are shaped to conform to the ear for a better acoustic seal and long wearing comfort. The ear pads are exchangeable and available for purchase from EPOS.

Long battery life with Bluetooth®

The headset charges when it is plugged in with USB, so it charges while you play. A single charge provides up to 37 hours of Bluetooth® audio and up to 24 hours when playing on a 3.5 mm console cable connection. Dual connectivity (3.5 mm cable and Bluetooth®) provides up to 19 hours of play.

Multiplatform Compatible

Works on PC, Mac, PS4, PS5, Nintendo Switch™ and Xbox with included exchangeable USB/console cables with USB-A, 3.5 mm jack(s), and with Bluetooth® compatible devices.

your smart devices using Bluetooth® or your portable gaming device via console cable.

Take Control of Your Sound

PC gamers can fine-tune their soundscapes using EPOS Gaming Suite. Enjoy mind-bending 7.1 Surround Sound, adjust your audio levels, and get your communication settings just the way you like them.

Smart Button

Program the Smart button on the right ear cup in the EPOS Gaming Suite for PC to activate 7.1 Surround Sound, switch between audio profiles, or pick up calls when connected to a smart device via Bluetooth®.

Audio Mixing With Simultaneous Bluetooth®

Playing a game on your console or PC while chatting on the phone with a friend? The H3 Hybrid can deliver two simultaneous audio streams straight to your ears. Volume of each stream can be controlled separately. The USB/Console audio will be controlled through the volume wheel while on the phone the volume controls manually on the device.

Continue Chatting While on the Go

Remove the H3 Hybrid's magnetic boom arm to slim down its profile and ramp up its portability. Then, snap on a matching cover plate to protect the headset's connectors and create a sleek, seamless look.

Mute At A Moment's Notice

The H3 Hybrid's lift-to-mute boom arm is only ever an arm's length away. Be the master of your chat experience. Simply raise the microphone to instantly take your voice off the air.

Integrated Volume Control

Focus is everything. This headset features an integrated infinity volume wheel on the right ear cup so you can make on-the-fly audio adjustments while keeping your eyes on the prize.

Lightweight Adjustable Fit

Adjust the headband's stainless steel slider until it is just right with its length indicators and handy click stops. Hinged ear cups angle to fit any face shape for an added dimension of luxurious comfort.

Ergonomic Ear Pads

The H3 Hybrid's cushy ear pads are designed based on the anatomy of the human ear for a superior acoustic seal and long-wearing comfort.
