All-round value gaming headset

The EPOS H3 closed acoustic headset delivers high quality game audio to enhance your game enjoyment. EPOS engineered game audio delivers the audio cues needed for quick in-game reactions, the deep bass for the feeling of immediacy, the acoustic clarity for crisp, clear chat even during the most intense game action.

The renowned EPOS build quality, design and quality materials make for a robust and durable headset. With multi-platform compatibility and plug and play offering ease of use, the H3 is an all-round best value proposition in a high-quality analogue gaming audio headset. The H3 features a brand-new design in the headband with stainless steel slider that adjusts the fit of the headset. Length indicators on the slider and click stops allow the user to easily find and remember their most comfortable fit. The new design also features hinged ear cups that can be angled to fit any face shape.

The noise reducing microphone has an easy to use, intuitive lift-to-mute boom arm that is flexible and allows adjustments for best voice pick-up position. The H3 has ergonomic ear pads designed based on the anatomy of your ear to ensure a good acoustic seal and is closed back for noise isolation, Focus on your game even in the noisiest environments with high-quality game audio. Take your game to the next level with the lightweight, adjustable fit of the H3 gaming headset

Closed acoustic gaming headset

The EPOS H3 closed acoustic gaming headset is designed for passive noise attenuation. Ergonomic ear pads designed to shape to the anatomy of the ear create a comfortable acoustic seal that lets you enjoy high quality game audio and focus on your game even in noisy environments.

EPOS engineered audio

Engineered to deliver the audio cues needed for faster in-game reactions, high quality audio takes your game enjoyment and performance to the next level. Deep bass extension allows you to experience explosions to the fullest and acoustic clarity delivers crisp chat for in-game strategy discussions.

Plug and play headset

Plug and play for ease of use and reliable connections allow quick switches with exchangeable cables and either one or two 3.5mm jacks. PC and console cables come with the H3 closed acoustic gaming headset.

Best all-round gaming headset

The value proposition in an all-round gaming headset with plug and play ease of use and multi-platform compatibility. The EPOS H3 delivers the bass-heavy sound for skin-tingling gamer immersion and crisp, clear audio for team communication during intensive play.

Microphone with lift-to-mute boom arm

A studio-quality microphone with noise cancellation provides improved control over in-game communication. Lifting the boom arm automatically mutes the microphone.

Lightweight adjustable fit

The EPOS H3 design features a built-in stainless steel slider in the headband. The length indicators and click stops on the slider allow the user to easily find and remember their most comfortable fit. The new design also features hinged ear cups that angle to fit any face shape.

Intuitive volume control

The volume wheel is integrated on the right ear cup of the headset and it allows for quick adjustments while gaming. There is no need to switch out of your game to adjust the loudness of your game audio.

Exchangeable ergonomic ear pads

Designed based on the anatomy of the ear, the ear pads conform to the shape of the ear for a better acoustic seal and long wearing comfort. They are also exchangeable.

Multiplatform compatible

Works on PC, Mac®, PS4, PS5, Switch and Xbox

Color options

The H3 headset is available in a sharp and stylish Onyx Black or in crisp, clean Ghost White
