About Arcadegeddon

Gilly, the owner of a local arcade, is trying to save his business from a faceless mega corporation. To do so he creates a super game, unfortunately the mega corporation hacks the game and injects a virus. You need to save the game and the last hometown arcade.

This ever-evolving multiplayer shooter allows you and up to three friends to explore multiple biomes, mini games, find hidden chests, and defeat numerous enemy types and bosses. Arcadegeddon is a cooperative multiplayer experience that provides a mix of PVE and PVP experiences that allows for all different speeds of play.
